put the  
**freeze** on  
Your **energy**  
bills

## Gas and electricity prices have more than doubled over the last five years...

### But help is at hand...

Cityfairtrades.com, Edinburgh's leading plumbing and heating company, are specialists in boiler and central heating systems and in bathroom design and installation. Using our simple, FREE energy guide, you can discover how to put the freeze on rising fuel prices.

**cityfairtrades** 

If we install your upgraded system, you only pay us when you're 100% satisfied

## Did you know...?

- Your boiler usage accounts for around **60%** of your total gas and electricity bill
- Upgrading your boiler could **save up to 40%** of your fuel bills
- Your fuel consumption can be **reduced by up to 20%** by fitting a few low-cost, easy-to-use devices
- Your old, inefficient heating system could be replaced with the help of a **government grant**
- Advanced boiler technology means you burn less fuel for the same heat output ... and **reduces carbon emissions**. A combination boiler only heats up water when a tap is on

## Your next step

If you think your heating system is inefficient and requires an upgrade, here's what to do...

Call us **FREE** on  
**0800 2289 298**

or visit [www.cityfairtrades.com](http://www.cityfairtrades.com)

One of our qualified engineers will visit you for a free energy-saving inspection and evaluation. A detailed report for your upgrade will be prepared, which will include the costs and any government grants available.
