BY WOODFORD

Ron Starkie
Group Managing Director
Homes by Woodford

Homes by Woodford is a fast-growing, dynamic company that will set the standard for exceptional 21st Century house-building and design in the UK. Our homes are specially created for stylish, modern living.

Homes by Woodford is part of Woodford Group PLC, the UK's largest and most successful land acquisition, remediation and residential development company.

Built on strong reputations, Homes by Woodford has the pedigree to succeed and the stability and backing of the highly successful Woodford Group PLC. As part of our challenging, rapid expansion plans, we intend to build exclusive new homes - homes that will raise the levels of quality and customer care.

 **CLARION**
HOMES

Attention to detail, exceptional standards of customer care and outstanding quality are all key features of the Homes by Woodford vision. Everything we do, everything about our homes is created and focused, specifically, on the requirements of the individual.

Our philosophy

At Homes by Woodford our locations are of prime importance and are chosen with utmost care and sensitivity for the surrounding environment. Desirable settings close to transport links and major trunk routes are favoured, as are sustainable developments built to blend in and become part of small towns or village communities

Our homes

Homes by Woodford are created for a modern, future-proof lifestyle and bring thoughtful design within the reach of every homebuyer. Built with care and attention to detail both externally and internally, our homes are constructed with modern life in mind.

Throughout the building process nothing is too much trouble. Homes by Woodford employ time-served craftsmen who understand the high standards expected by today's discerning purchasers. We create design-featured homes, without compromise, in desirable areas. Our homes are visually compelling and afford buyers space to enjoy a safe and secure lifestyle.
